

# Economic Policy Uncertainty Index for Australia

**Notes:** Index reflects scaled monthly counts of articles in eight Australian newspapers containing “uncertain” or “uncertainty”, “economic” or “economy”, and one or more policy-relevant terms: regulation, “Reserve Bank of Australia”, RBA, deficit, tax, taxation, taxes, parliament, senate, “cash rate”, legislation, tariff, war. Normalized to a mean of 100 from 1998 to 2013. Index methods follow “Measuring Economic Policy Uncertainty” by Baker, Bloom and Davis.
